WILL NOT BE A CANDIDATE FOR APPELLATE BENCH.

A Frankfort dispatch says: "Having decided not to seek the Democratic nomination for Appellate Judge, J. D. Hannah of Sandy Hook, so announced to friends here. It is his purpose to let the Democratic voters of the Sixth district know his conclusion, as he would not have had opposition for the nomination. Judge C. D. Newell of Maysville, Matt Harbeson of Covington and Allie W. Young of Morehead, may seek the nomination."

Since the above was put in type we learn that Judge Newell will not enter the race, but will be a candidate to succeed himself. —Dover News.

BECKHAM'S ELECTION.

Was John Crepps Wickliffe Beckham legally and fairly nominated in the Kentucky State primary, and was he fairly and legally elected to the Senate at the November election of 1914? Some what irritated over denunciations from Democratic sources on the election of Penrose of Pennsylvania and the corrupt methods alleged to have been used before the election and at the polls, Senator Sutherland stated on the floor of the Senate that: "If the Democratic majority persists in seeking an investigation of the Republican Senatorial election I will insist that the alleged frauds in Pike county, Kentucky, be probed to the bottom."

Right in one way, Senator Sutherland is wrong in another. If there were frauds committed in the election of Penrose they should be investigated, not because of Democratic insistence, but because of the honor and integrity of the Senate and its membership should be maintained without reference to partisan politics.

Senator Sutherland is wrong in his implied promise that if the investigation of the Penrose election be abandoned he will not press an investigation of alleged frauds in the Beckham election.

The honor and integrity of the Senate is interested in the investigation of Democratic and Republican frauds in elections, and party politics should not control the pursuit or the abandonment.

The question, however, is: "Was Beckham legally and fairly nominated and elected to the Senate?" Once it was that Adams county, Ohio, held the blue ribbon in election frauds and disfranchisements. Today Pike county, Kentucky, is running a very close second and all indications point to a nose-and-nose finish between the two counties.—Commercial Tribune.

CAN NOT "HANDLE" GERMANY.

The German naval critic who is quoted in Berlin dispatches as saying that the United States will be fooled if it hopes to "handle" the German government by means of threats or pressure is right, no doubt. The situation is indeed a serious one. The Germans have announced a policy of naval warfare unprecedented and extremely dangerous to neutral interests. They are in a mood to fight all comers and inasmuch as they are going to be whipped in any event there would be no less honor in being whipped by four or five great powers than by three. It can not matter much to Germany who comes into the fight, since it is pretty plain that she can not whip the present allies. That is where the difficulty lies. Germany is not in a mood to be handled by threats, by reason or by other means.

We shall be fortunate if we avoid having to take part in the European conflict. The danger is great, despite the tendency of the average American to look upon war as a remote possibility in the case of his own country.—State Journal.

THEY AIN'T NO SICH ANIMAL IN MAYSVILLE.

Andrew Carnegie once said that the cheapest commodity. He worked hard, he gave his time, his ability, his money, his credit and his reputation to build up a community and to keep people employed and all he got out of it was his board and clothes.

We might say the same thing of the business man in general. He usually gives more than he gets.

The "war" tax on business is likely to be made a permanent tax, as Congressmen who opposed it charged it would. Already the secretary of the treasury, in his annual report, recommends that its operation be extended beyond December 31, 1915, its present limit.

MILITARY TRAINING IN THE SCHOOLS.

An outbreak of the militarist spirit in the public schools of the country was to be expected as one of the results of the European war. The suggestion was made some time ago that schoolboys be given some military training. Bibb county, Georgia, in which the city of Milledgeville is situated, has acted on this proposition, and is the first to make military training a part of the public school curriculum, and to place an army officer in charge of the course.

Many arguments are presented in favor of this addition to our school curriculum. It will physically benefit the boys, it is claimed, but no more so than the athletic exercises now provided in so many of the states. It will unquestionably prove popular with the boys, who delight to play soldier. It is thought that the drilling will attract them to the public schools and keep them there to complete their education, and that there will be fewer cases of "hooky" and tardiness. It is believed that other counties will follow the example of Bibb, and other states that of Georgia. This will naturally lead to the organization of a state bureau of military education in the schools, and to more or less federal control or superintendence to assure uniformity, as the general government is responsible for the public defense and our military preparedness.—New Orleans Times-Picayune.

BACK TO THE G. O. P.

Mayor Hazelip of Paducah, who, a year or so ago, was a rambunctious and untamable Bull Moose, must have reached the conclusion that Col. Roosevelt's Progressive party is a dead bird. The mayor has sent in his resignation as a member of the Progressive State Central Committee and has announced that hereafter he will be back in the ranks of the Republican party. That means the mish of the Bull Moose down in the First District as Paducah was about the only place where its organization amounted to anything. Maybe Hazelip, by the way, was the "whole works" of the Paducah organization.—State Journal.

FOOLISH PHILOSOPHY.

For our part, we would rather get up in the world than go down in history.

The old-fashioned heroine who used to pine away in a convent now has a niece who runs away with a chauffeur.

Shaving is about the only part of a man's expenses which marriage doesn't increase.

One idea of a modest man is one who doesn't think he could beat a preacher at preaching.

To have come from a noble family tree isn't much of an advantage to wormy fruit.

Even a clock may complain that time hangs heavily on its hands.

A literary man can always write poker stories to keep the pot boiling.

The woman who thinks only of dress sometimes allows her ideas to go to waist.

The fellow who stands in his own light must expect to be thrown in the shade.

You can't keep a good man down, but that is no reason why a fellow should get up in the air about it.

Cheer up. The fool who rocks the boat may live to ride in an aeroplane.

The world's greatest misfit is illustrated by the big opinions of a small man.

Neutral.

Bill—"How is it that all you fat fellows are so good natured?"

John—"We have to be good natured. You see we can neither fight nor run."

When a girl loses her interest in brands of toilet powder, and begins to take an interest in brands of flour, it is evidence that things are looking up for her best young man.

Binks—"He says his wife is largely responsible for his business success."

Jinks—"Well, she has certainly made it absolutely necessary for him to earn more money."

OUR CITIZEN'S DEMAND

Fully Complied With—A Maysville Resident Furnished It.

There are few items which appear in this paper more important to Maysville people than the statement published below. In the first place, it is from a citizen of Maysville and can be thoroughly relied upon. In the second place it indisputably proves that Doan's Kidney Pills do their work thoroughly and not temporarily. Read this carefully: Frederick Dresel, 1238 E. Second St., Maysville, Ky., says: "I was troubled with inflammation of the bladder and annoyance from my kidneys. The passages of the kidney secretions were irregular and I had a severe pain across the small of my back which interfered with my duties. When a friend advised me to try Doan's Kidney Pills, I got a box at Wood & Son's Drug Store. Since using them I have had no trouble. All I said about Doan's Kidney Pills before, still holds good."

Mr. Dresel is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Dresel had—the remedy backed by home testimony. See all stores. Foster-Milburn Co., Prop., Buffalo, N. Y. "When Your Back Itches—Remember the Name."

IN THE WORLD OF POLITICS.

Former Governor Colquitt of Texas has made formal announcement of his candidacy for the United States Senate.

Whether Helene, Mont., shall adopt the commission plan of government will be decided at a special election in April.

It is a fact not generally known that Martin G. Brumbaugh, the new Governor of Pennsylvania, is an ordained Dunkard minister.

More than 250,000 persons signed a petition asking the Texas Legislature to submit to the voters an equal suffrage amendment.

Martin Wade, Democratic national committeeman from Iowa, is mentioned as a possible successor to the late Judge McPherson of the United States District Court.

A boom has been launched for Walter S. Dickey of Kansas City for the Republican nomination for United States Senator from Missouri to succeed Senator Reed.

It is rumored that James K. Tener, who recently retired from the Governorship of Pennsylvania, may decide to become a candidate for his old seat in Congress.

W. W. Bennett, who is serving his second term as mayor of Rockford, is mentioned as a possible candidate for the Republican nomination for Governor of Illinois in 1916.

The Prohibitionists, it is said, are planning to wage a great battle in Massachusetts next fall to elect William Shaw the general secretary of the Christian Endeavor Union, to the Governorship.

Of the 10,000 women registered in Boston only about one-third exercised their privilege to vote in the recent elections in that city. The equal suffrage leaders are planning a campaign to get out a larger vote at the next election.

Clarence Kitchin, who is to be the new Democratic floor leader in the National House of Representatives, is serving his seventh term in Congress as Representative of the Second district of North Carolina. Prior to his election to Congress he never held any public office.

A bill is pending in the State Senate of Missouri which, if enacted into law, will make it optional with the state committee of each party to decide whether to nominate the state officers by primary as the law now compels or to return to the system of holding political conventions.

It is reported in Washington that strong pressure is being brought to bear on President Wilson to nominate for his cabinet a man who is a member of the National Education Association.

For years he had not been known to be down or close his eyes. On a bet, it is said, he once ate half a barrel of ginger cakes and a whole ham.

PEACE INSTRUCTION IN THE SUNDAY SCHOOLS.

The Commission on Christian Education of the Federal Council of the Churches of Christ in America has prepared a complete set of Sunday school lessons on international peace to be placed in the regular Sunday school courses and quarters of the various denominations. They were prepared by Prof. Norman E. Richardson of Boston University, under the direction of a joint committee representing the Sunday School Council of Evangelical Churches and the World Peace Foundation.

The Commission has also appointed a committee to make a thorough investigation at Gary, Ind., and elsewhere, relative to the co-ordination of the religious instruction of children with the public school work, the purpose being to prepare a definite proposal to the churches and to the public schools whereby, under their respective pastors, the school children may have religious instruction without sectarian complications, in connection with their general education.

GO TO CHINA TO BECOME BRIDES.

New York, February 18.—Two young women, one of whom is Miss Beatrice Leonard of Port Chester, and the other, Miss George Kelman of Milwaukee, start today for China, where they are to become the brides of two American residents of Hongkong. The young women will make the long journey to the Orient unaccompanied, traveling by way of San Francisco, Honolulu and Japan. Miss Leonard is to wed Walter Marshall, who is manager of the Standard Oil Company's office near Hongkong. Miss Kelman will wed Frederick Tyson, formerly of this city and now one of Mr. Marshall's business associates in China.

MAYSVILLE DELIVERS THE GOODS.

(Charles Advocate.) A. E. Stephenson writes from Pienlung county that one basket of his tobacco sold over the floors of a Maysville house last Friday for 57 cents the pound and states that was the highest price sold there this year.

HENRY FORD'S VIEWS ON LABOR.

It is a fact significant of the enormous growth of the motor car industry that the most prominent figure today in the United States government's efforts to reconcile capital and labor should be a motor car manufacturer. That man is Henry Ford of Detroit. And the testimony which he recently gave to the Federal Industrial Commission, was easily the most impressive and convincing that has been offered. A burst of applause swept through the aldermanic chamber in the old New York City hall when Mr. Ford, testifying, said quietly: "We will guarantee to take every man out of Sing Sing and make a man of him."

In explaining the purposes and the actual results of the stupendous Ford profit-sharing plan, Mr. Ford said: "If employers of labor have a genuine interest in the improvement of the condition of labor, no conditions that are irksome or distasteful will be laid upon the men." This is even more to the point: "We can not expect a man to give us his best efforts when he is in debt and has not enough money to keep his family on."

Naturally, some of the representatives of capital and large employers present at the session were curious to know whether this distribution in one year of about \$10,000,000 of Ford profits "really paid or not."

Mr. Ford smiled and said: "I don't know how you would figure that out; however, there has been an increase of between 15 and 20 per cent efficiency since the inauguration of the \$5-a-day minimum wage, and the profit-sharing plan."

It is interesting to see how that estimate of the increased efficiency, "between 15 and 20 per cent," is borne out in the production of Ford cars. Last year the Ford Motor Company manufactured and delivered 249,348 cars. This year, between August 1, 1914, and August 1, 1915, 300,000 Fords will be manufactured and sold at retail, and that accomplished, Ford purchasers will share in Ford profits.

"NEGRO WHO NEVER SLEPT" IS DEAD.

Baltimore, Md.—Known as "the negro who never slept," Martin Hope, well, 40 years old, a slave of antebellum days in the family of Col. Edward Wilmer, died at the Maryland General Hospital.

From the time the old negro entered the hospital on November 27, with a compound fracture of his leg, until just two hours before his death from pneumonia, he never closed his eyes in sleep. This was vouched for by the nurse who cared for him.

Martin Hope was known in Port Deposit as the man who never slept. For years he had not been known to be down or close his eyes. On a bet, it is said, he once ate half a barrel of ginger cakes and a whole ham.

FOR NEW HIGHWAY ACROSS CONTINENT.

Montevideo, Minn., February 18.—Plans for a model highway to extend from the Atlantic to the Pacific are to be considered and acted upon at the annual meeting of the Twin Cities Aberdeen-Yellowstone Park Trail Association, which met here today with many delegates in attendance. The original object of the association was to build a highway from Minneapolis and St. Paul to the Yellowstone Park. A year ago it was decided to extend the road from the Yellowstone Park to Seattle, over a route touching many of the principal cities of Montana, Idaho and Washington. "Now it is proposed to build a transcontinental highway by extending eastward from the Twin Cities to the Atlantic."

"OLD NEWSBOYS' DAY" IN CHICAGO.

Chicago, February 18.—This was "Old Newsboys' Day" in Chicago. As a novel means of raising funds to aid the unemployed some 200 successful business and professional men who began their careers selling papers today took up their stands on the downtown corners and peddled their papers to the accompaniment of loud cries of "Wuxtry!" Few of those who purchased the papers received any change, but they had the satisfaction of knowing that the "overcharge" will be used to provide food and shelter for some of the thousands of men and women out of work.

NEW COTTON STANDARDS IN EFFECT.

Washington, February 18.—The new official cotton standards of the United States, adopted in accordance with the provisions of the recently enacted Cotton Futures act, are to be put into effect today on all the exchanges dealing in cotton futures. The new standards cover the following grades of cotton: Middling fair, strict good middling, strict middling, middling, strict low middling, low middling, strict good ordinary and good ordinary.

HEMP COMING BACK.

Bourbon county farmers are of the opinion that the outlook for a good hemp crop throughout this section is excellent. Farmers, having become disgusted with tobacco at an average of 8 cents per pound, are turning toward hemp, and there will be several hundred acres put in in Montgomery, Clark and Bourbon counties this year. Kentucky used to be the principal hemp growing state in the Union and hemp fields were more common in the Blue-rass region than tobacco are at the present day. Hemp fell somewhat into disuse, however, the prices went down and the farmers found it increasingly difficult to secure reliable help in harvesting the product. Hemp was gradually abandoned and tobacco, as a general thing, took its place. Now tobacco prices are bad and hemp is looking up and it is not surprising that this once highly favored product is coming into vogue once more.—Bourbon News.

LAMBS COMING FAST.

Lambs are beginning to come fast throughout central Kentucky, but the bad weather has caused many of the youngsters to freeze. The market has opened up good, lambs selling at 7 and 7 1/2 cents, and many are being contracted for at that price for July and August delivery. The wool market has also opened, and 25 cents a pound is being paid for clean fleeces, with 20 cents offered for black and unclean fleeces.—Carlisle Advocate.

He rambled all around 'till the butcher cut him down. Ironton is all agog over a sensational incident which occurred Saturday night, when the police found a trail of blood leading from the home of a well known butcher to the home of a better known street car conductor. The police found the conductor suffering from a badly damaged head, bruised body and broken ribs. He declined, however, to make any statements as to how he came to be injured. The butcher has nothing to say beyond the statement that he "came home earlier than usual, found a dog in his house and kicked him out in the street, presumably dead."

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theodor's Black-Draught, and quit taking other medicines. I decided to take his advice, although I did not have any confidence in it. I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it. I am so thankful for what Black-Draught has done for me." Theodor's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest. LOOK OUT FOR THEM.

From different parts of the country come stories of a swindle successfully worked on farmers who thought they were going to get cheap groceries. Two smooth strangers went through the communities taking orders for a house in Chicago, pretending to sell a standard brand of sugar and flour so cheaply that every farmer visited took from \$1 to \$40 worth, and other things besides. Because of the low prices the flour and sugar had to be "paid in advance." It is alleged that in one community the swindlers picked up some \$3,000 and no groceries delivered.

Mr. George E. Himes of Lewis county has placed with us for sale two farms that adjoin. One, a farm of 170 acres, the other 50 acres. The 170-acre farm has on it a two-story, seven-room frame house in good condition, tobacco barn 10x60, stock barn 36x36, usual out-buildings. The 50-acre farm has a small house of four rooms, tobacco barn 10x40, 25 acres of bottom land with this farm. Both places have good orchards with a variety of fruit. Mr. Himes' reason for selling is he is getting along in years and does not want the responsibility of looking after a large farm. If you are not afraid of work you can make good on this farm. Price for both farms, \$4,500.

\$12,000 FROM STATE

For Improvement of Mason County Roads Is Asked By Mason Fiscal Court at Special Session Held Yesterday

Settlement Made With Sheriff—Few Claims Allowed—Other Business

Fiscal Court met in special session yesterday. Present Hon. W. H. Rice, all the justices except Esquire Moore, together with County Attorney W. H. Rice.

It was ordered that the sum of \$12,000 be set aside from the levy of 1915 Turnpike Fund of 1915 for the purpose of improving Maysville and Lexington, Mason and Bracken, Mason and Lewis and Maysville and Mt. Sterling turnpikes, the state of Kentucky to furnish a like sum from the State Road Tax of 1915.

RESOLUTION AND ORDER.

Mason County Fiscal Court.

Special term, February 17, 1915.

On motion of Esquire Bullock, seconded by Esquire Dresel, the following resolution is passed by the Mason County Fiscal Court, as follows, to-wit:

Be it resolved, That the public interest demands the improvement and construction of a macadam road on the Maysville and Lexington turnpike road, for about ten miles on said road, beginning at Maysville and running to the Sardinia pike, being in a southerly direction, same being a road connecting the county seat of Mason county with the county seat of Robertson county, on the most direct and practical route.

Also, the Mason and Bracken road, or the road commonly called the "German town" road, a distance of twelve miles, more or less, beginning on said road at Maysville and running thence in a westerly direction to the Bracken line, being a public road connecting the county seat of Mason county with the county seat of Bracken county, on the most direct and practical route.

Also, the Maysville and Mt. Sterling road, beginning on said road at Maysville and running thence in a southerly direction to the Fleming county line, being a public road connecting the county seat of Mason county with the county seat of Fleming county.

Also, the Mason and Lewis road, beginning at Maysville and running thence in an easterly direction to the Lewis county line, being a public road connecting the county seat of Mason county with the county seat of Lewis county.

It appearing that the Fiscal Court of Mason county, by order heretofore made, have made a levy and appropriation in the sum of thirty-one thousand dollars (\$31,000) for the purpose of building, maintaining and repairing the public roads and bridges in Mason county, and have set apart twelve thousand dollars (\$12,000) or so much of said funds as will amount to the funds that Mason county will receive from the state of Kentucky for the purpose of building public roads in the year 1915.

Now, therefore, upon motion of Esquire Bullock, it is ordered by the Fiscal Court of Mason county that they do petition the state of Kentucky and the State Commissioner of Public Roads of the state of Kentucky for the proportionate amount of State Road Fund that may be available for Mason county, or the sum of twelve thousand dollars (\$12,000), the Court supplying a like amount to be used in the construction of said roads.

Be it further ordered that a copy of these resolutions and a copy of this order be certified to the State Commissioner of Public Roads of Kentucky for his approval and action thereon.

These voting in the affirmative:

PURCHASES HEMP OUTPUT.

Winchester, Ky., February 17.—C. S. Brent of Paris, who has a contract with the United States government, closed a deal here purchasing practically the entire output of hemp in Clark county, paying the highest price ever known for the article, \$9 per hundred. In the past 10 years the acreage of hemp has fallen off in the Blue Grass 90 per cent on account of the growers being unable to secure help to finish the crop for the market. Crops sold today were Hunter and Fox, 25,000 pounds; W. M. Tucker, 20,000 pounds; Jeff Hill, 18,000 pounds; Shirley Steele, 18,000 pounds; John Moore, 7,000 pounds, and Charles Pinnell, 7,000 pounds.

OUR COLORED CITIZENS

Card of Thanks.

I wish to extend my heartfelt thanks to my friends and neighbors for their sympathy and kindness shown me during the long illness and loss of my beloved wife, Elizabeth Clemons. Especially Rev. Callanmore, Rev. Statesman, Rev. Combs and Rev. Jackson. Also the Bethel church choir for rendering such melodious music and sweet songs; the pallbearers and all the donors of the beautiful floral offering. Also the funeral director, Mr. John W. Porter, for the efficient manner in which he conducted the funeral.

AMOS CLEMENS.

Constable James McNamara continues to improve.
